

## ***P-1 Parking Garage Request for Proposal***

### **Clarification #001**

The following is intended to answer questions raised and clarify the P-1 Parking Garage Request for Proposal (RFP):

1. Proposal Due Date – We are extending the proposal due date. **Proposals are now due on Tuesday, October 13, 2009.**

2. Retail – Refer to Section VII Additional Information, Item 5 – Delete the last sentence and replace with the following:

“The Science + Technology Park at Johns Hopkins is programmed to contain approximately 80,000 SF total of retail space in the ground floor of buildings. The main retail corridors are N. Wolfe Street and Ashland Avenue. As a result, our desire is that the P-1 Garage contain approximately 6,000 GSF of ground floor retail in a manner and location that works within the design/engineering of an efficient garage layout.

FC-NEBP will work/coordinate with the selected sub-developer to assure the quality tenant mix and service distribution we need to establish a sustainable retail community. However, for the sake of the proposal response, we expect the garage owner to assume it will build, own, lease and manage the retail space.”

3. Bidder Interest List – Please see attached updated bidders list document (8 pages) which contains the firms (with contact information) who expressed interest in the project and/or attended the 9/16/09 pre-bid and outreach meeting. Firms are encouraged to review the list to make themselves familiar with the resources available in the local business community, including women and minority owned businesses, and to take early steps to form business relationships that will align with the goals of the RFP. If you want to partner with such firms, please contact them directly. To be added to the list, and to be alerted to updates of the list, please contact Karen Brice or (410) 900-1006.

## P-1 Bidder Interest List

### **28 Walker Associates**
